

Cooperation Conference for Study in China 2022

CUCAS & Partners

Feb 18, 2022

A large crowd of people, many wearing face masks, is shown in a public space. The image is slightly blurred, suggesting movement or a shallow depth of field. The people are dressed in winter clothing, including jackets and hoodies. The overall atmosphere is one of a busy, crowded environment during a health crisis.

The screenshot displays a mobile application interface. At the top right, there is a user profile picture. Below it, a notification bar shows a document verification status: "J819858263758399 - Documents under verific" with a red circle containing the number "2". The main content area features a background image of a biological specimen with the date "Monday, July 26" overlaid. Below the image, there is a blue button labeled "Explainer Video" and a large QR code. To the right of the QR code are two large black buttons: "Download on the App Store" with the Apple logo and "GET IT ON Google Play" with the Google Play logo. At the bottom, there are three smaller logos for "mi", "oppo", and "HUAWEI".

X+N

Program Introduction

1. What is A “X+N” Program?

Chinese universities cooperate with foreign high schools, universities, or organizations to open a joint program to train students together.

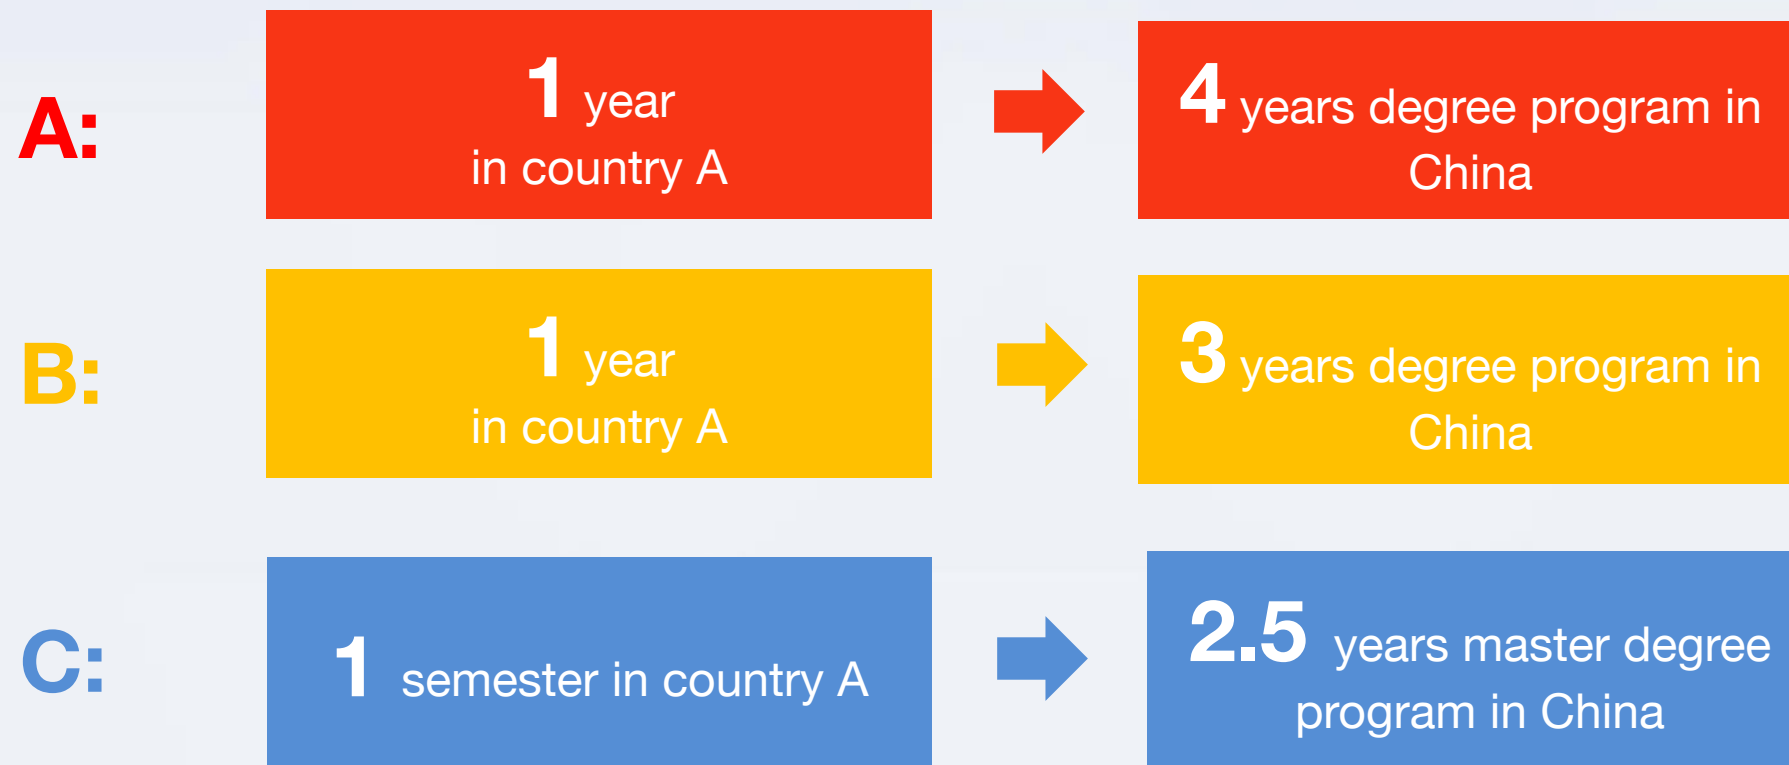

“X” means the period that students learn in their home country,

“N” means the period that students study in Chinese universities.

Students could improve their knowledge before entering Chinese universities, and being accepted by top Chinese universities with the maximum success rate and scholarship opportunities.

1. What is A “X+N” Program?

For Example:

2. How X+N Program Works?

CUCAS and CUCAS partners together build X+N cooperation between Chinese universities and foreign universities/schools. Students study Chinese, English and knowledge about study in China then continue degree study in China.

Qualified students could get admission to Chinese universities directly after they finished the “X” part and enjoy admission priority; Excellent students could get full or partial scholarships.

We can also customize different programs for Chinese universities and foreign schools to make it the best program for our partners' local market.

3. Why X+N Program?

For CUCAS Partners:

1. Get support from CUCAS: tips, suggestions, help from designated staff.
2. Enjoy the resource of 600+ Chinese universities and thousands of full and partial scholarships seats.
3. Get benefits including: commission from local university and Chinese university, service fee by helping international students to submit applications and etc. (About 500 to 3,000 USD per student or more)

3. Why X+N Program?

For International Students:

1. Not only improve Chinese or English language skills, get HSK or TOEFL certificates through the X+N program, but also learn more about China before departure. (It is especially very important during the pandemic, students could study in their home country first when China's border isn't open yet.)
2. Get maximum success rate, admission priority, and scholarship opportunities in X+N Chinese universities league. The admission policy of Chinese universities will change for the higher quality of students.

3. Why X+N Program?

3. Get X+N program certificate which will help improving success rate for applying other Chinese universities.
4. Get pre-admission notice from Chinese university and get registered in Chinese university during the X+N program.

3. Why X+N Program?

For Foreign Universities:

1. To open an international foundation program, and get more students.
2. Offer more and better choices to their current students.
3. Build more cooperation with Chinese universities(including top ones) and go far on the road to internationalization.

3. Why X+N Program?

For Chinese Universities:

1. Get more and well-trained excellent students from the X+N program.
2. Offer admission and scholarships opportunities to real qualified students. Meet the new requirements and target of Chinese government. (So they are willing to offer more seats and opportunities to students who joined X+N program)
3. Build more cooperation with foreign universities with the help of CUCAS and its' partners.
