Heritage
Convention

History of Zhejiang University

Originated from
**Qiushi Shuyuan (Truth
Academy)** 求是书院
founded by **LIN Qi**, the
Magistrate of Hangzhou
Prefecture in 1897

LIN Qi 林启
(1839-1900)

History of Zhejiang University

1928 formally named to
**National Zhejiang
University**

国立浙江大学

History of Zhejiang University

- 1998 Four universities in Hangzhou were merged to form the new **Zhejiang University**:
- Zhejiang University
- Hangzhou University
- Zhejiang Agriculture University
- **Zhejiang Medical University**

Facts of Zhejiang University

- 12 academic disciplines:
philosophy, economics, law, education,
literature, history, art, science, engineering,
agriculture, medicine, management
- 7 faculties and 37 colleges/schools
- 44,874 full-time students
 - 13,704 graduate students
 - 8,241 Ph.D candidates
 - 22,929 undergraduates
- 3,156 international students from 128 countries

Campus of Zhejiang University

Zijingang 紫金港
(Zijin Harbour)

Yuquan 玉泉
(Jade spring)

Xixi 西溪
(West brook)

Huajiachi 华家池
(Huajia pool)

Zhijiang 之江
(Zhijiang River)

Hubin 湖滨
(Lakeside)

8-year M.D. program - 1

An entire new training mode: “4+4”

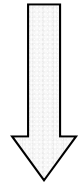

Throughout 8 years, 2 entire stages

“4+4” mode

High school graduates

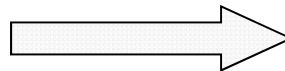

Chu Kochen Honors College,
Zhejiang University

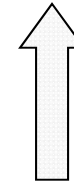

1 st “4”-year

Bachelor degree in any
major other than medicine

Medical doctor (M.D.) degree

2nd “4” year

Zhejiang University
School of Medicine

8-year M.D. program - 2

Unique in China

ZJU School of Medicine

2 entire stages

"4 +4"

Undergraduate courses
Medical courses

1 medical degree+1 other degree

Non-medical Bachelor
&
Medical doctor (M.D.)

Other medical schools

3 stages

Pre-medical courses
Medical courses
Post-medical courses

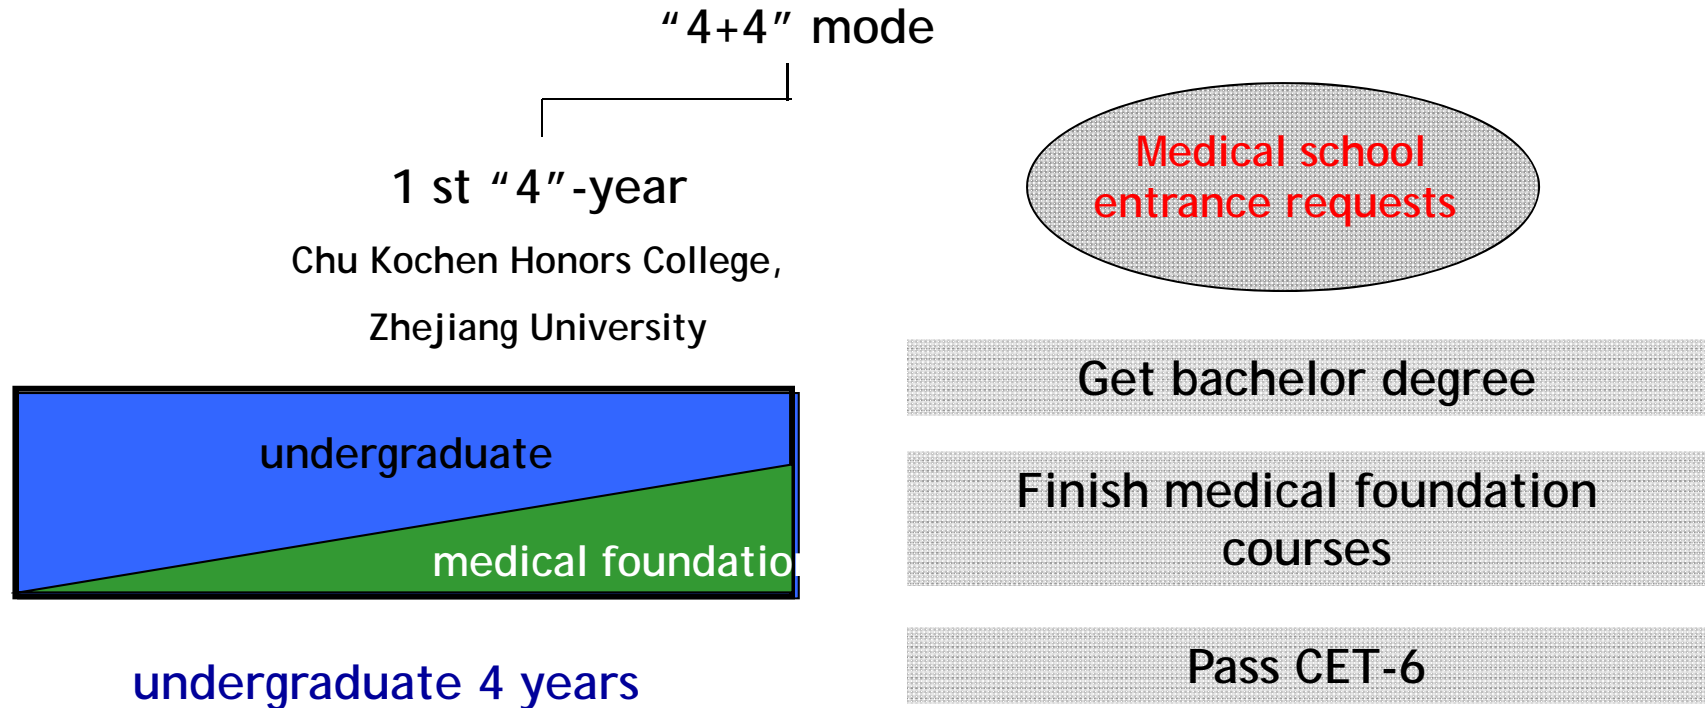

2 medical degrees

Bachelor of medicine
&
Medical doctor (M.D.)

An entire new training mode: "4+4"

8-year M.D. program - 3

New curriculum-1st "4" year

8-year M.D. program - 4

New curriculum-2nd "4" year

"4+4" mode

2nd "4" year

Medical School,
Zhejiang University

Years 1 & 2

Human Biology and
integrated medicine---
-Adopt Human Biology
and Diseases (HBD)
curriculum from UCLA

Year 3:

Junior Clerkship

Year 4:

Senior Clerkship

Integrated medicine

clinical foundation

Junior
Clerkship

Senior
Clerkship

Years 1& 2
for preclinical phase

Years 3& 4
for clinical phase

8-year M.D. program - 5

New curriculum-2nd “4” year

Years 1 & 2: Human Biology and integrated medicine

Principle

Integrate basic, clinical and social sciences

Promote active learning for deep understanding

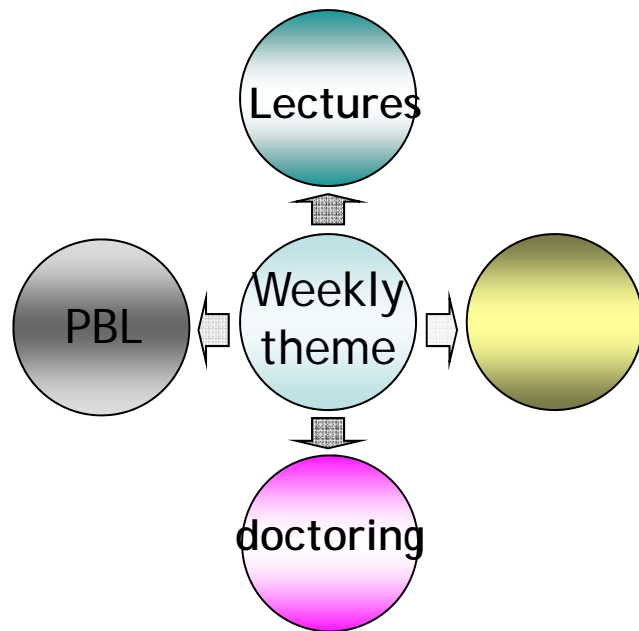

Disease based learning

Promote student research

8-year M.D. program - 6

Years 1 & 2: Human Biology and integrated medicine

A typical week

Weekly theme & goals

PBL: 4 hours

Lectures: 13-16 academic hours (45 min/a.h.)

Lab: 8 a.h.

Doctoring: 4 a.h.

Weekly online formative assessment

8-year M.D. program - 7

Years 3 & 4: Junior & senior clerkship

Structures

Junior clerkship

60 weeks

In a ward medical team

Be on duty

Join in doctor consultation

Outpatient service(1/2day per dept)

Senior clerkship

34 weeks

Special clinical skills training

Clinical training at higher levels

Treat emergency and serious patients

Track the onset and course of the disease

New Biomedical Sciences program -1

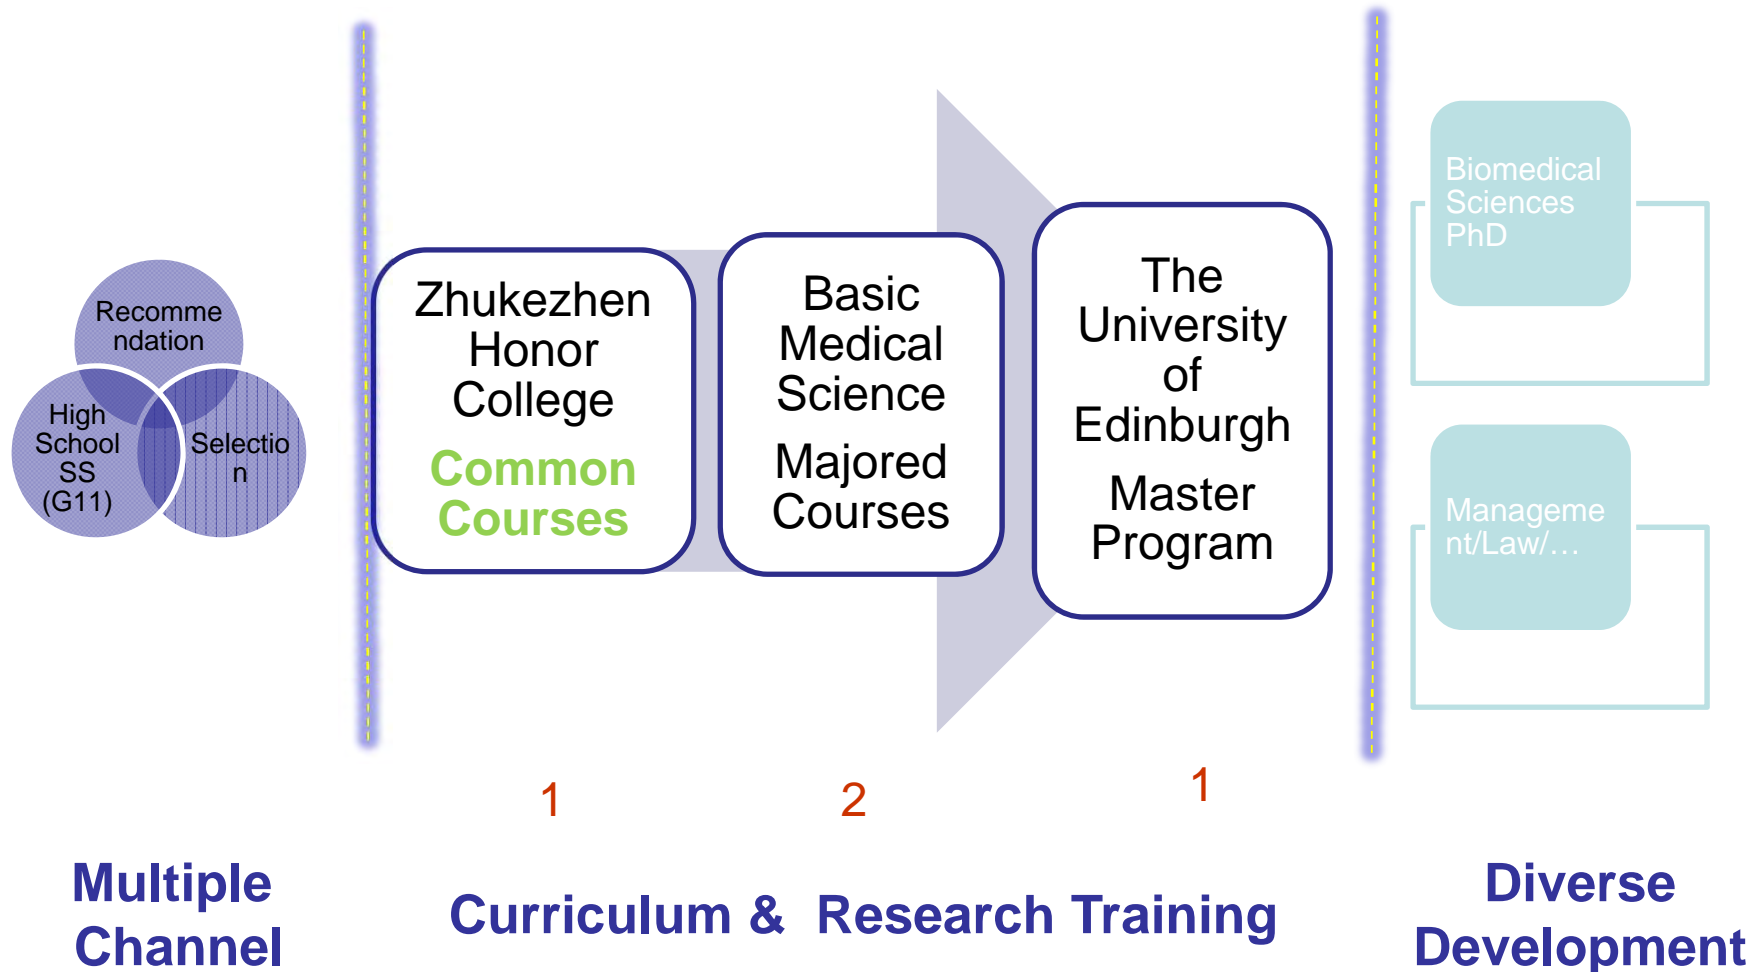

In 2012, **as a part of the pilot reform project**, the School of Basic Medical Sciences established the Program of Biomedical Sciences.

Core mission: to prepare the students to be leaders in the field of BMS in the 21st century.

New Biomedical Sciences program - 2

Design: 3 + 1 + X Degree Program

New Biomedical Sciences program -3

◆ Admission of the BMS Students

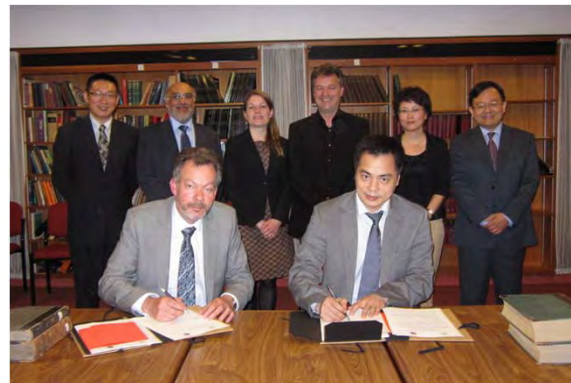

- Excellent high school students: **Recommended, Exam-free, Interview**
- **Selection** from excellent freshmen in ZJU

◆ Special curriculum and training model

- First year in **Chu KoChen Honor College**, under a special ZJU program for training innovative scientists.

◆ Developing partnership with leading universities around the world

- In 2012, the “3+1” collaborative agreement with **U. Edinburgh**:
 - **Bachelor Degree** at Zhejiang University (**3 years**)
 - **Master Degree** at the University of Edinburgh (**1 year**).

MBBS program for International Students - 1

Started in 2006

English Medium, 5.5 years

Batch	Student	Countries
2006	43	8
2007	100	19
2008	73	16
2009	78	21
2010	82	18
2011	86	10
2012	93	12
2013	96	20

MBBS program for International Students - 2

Research of Medical School

Institutes: 28 in campus and hospitals

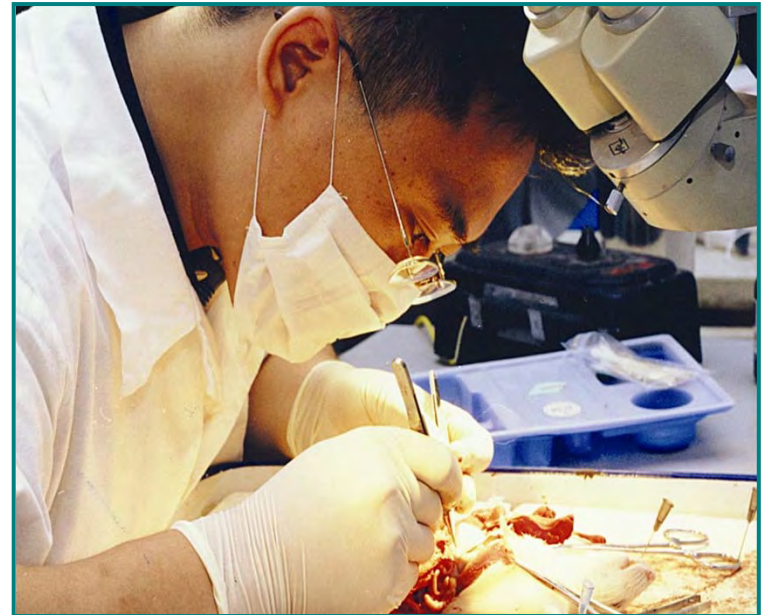

Key laboratories: 23 (1 at the national level)

Research space in main campus:

100 PI units with 500,000 feet²

Principal investigators (PI): 60

Animal center: 86,000 feet²

Research of Medical School

Strengths in Research

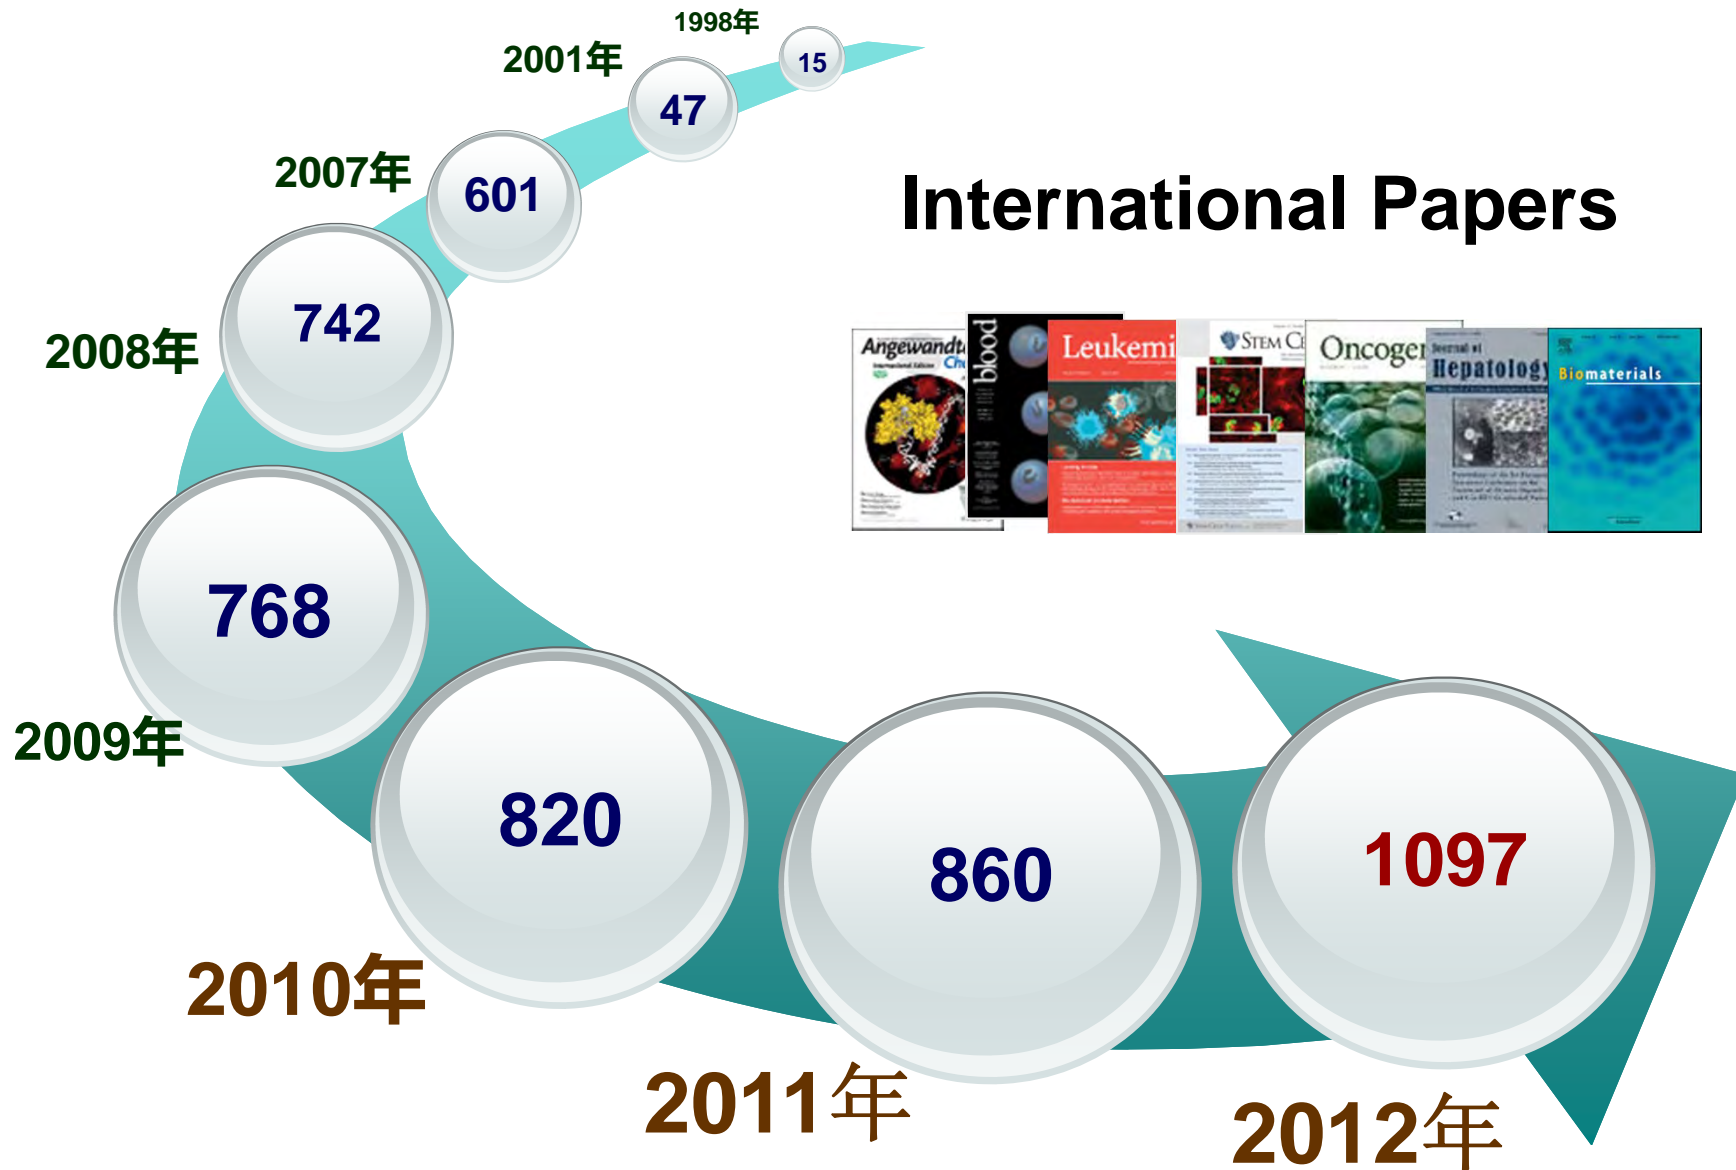

- Infectious Disease
- Organ Transplantation
- Surgical Technology
- Oncology
- Pediatrics
- Reproductive Medicine
- Hematology
- Emergency Medicine
- Environmental Health
- Pathology
- Immunology
- Neuroscience
- Cell Biology

Research of Medical School

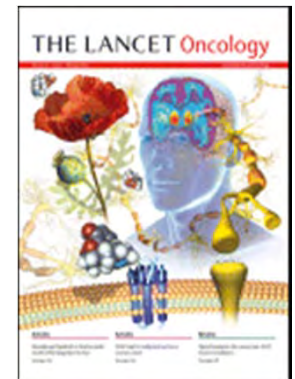

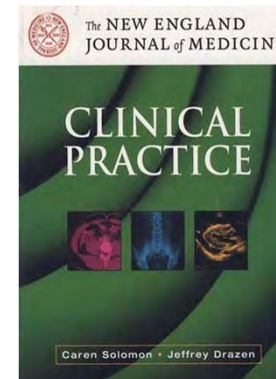

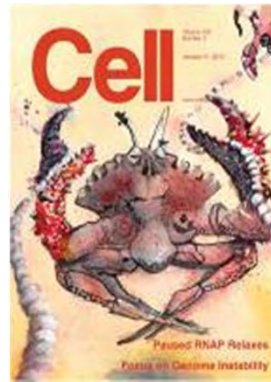

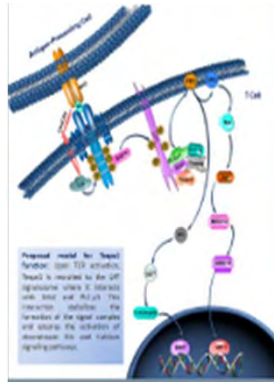

Year	NSFC grants	Funds (millions RMB)	International Papers (SCI)
1998	2	4.99	15
2003	29	47.5	130

2010	6.967	27.43	8.6327
2011	7.73	30.9	10.146
2012	8.845	36	11.1146

The First Affiliated Hospital

- **Founded in 1947**
- **> 3000 staff members**
- **83,017/year inpatients**
2,599,300 / year
outpatients
- **JCI (Joint Commission international) accredited,**
Feb 2013

The First Affiliated Hospital

- **Featured Departments (1)**
 - **The Department of Infectious Diseases**

H7N9 Bird Flu

The First Affiliated Hospital

- **Featured Departments (2)**
 - **The Liver Transplantation Center**

Prof ZHENG Shusen and his team successfully completed 3 cases of live-donor liver transplantation in Jakarta, Indonesia

The First Affiliated Hospital

- **Featured Departments (3)**
 - **Kidney Disease Center**

The First Affiliated Hospital

- **Featured Departments (4)**
 - **Bone Marrow Transplantation Center**

The Second Affiliated Hospital

- Founded in 1869
- 2342 staff members
- 68,453/year inpatient
- 1,923,271/year outpatient
- JCI accredited Feb 2013

The Second Affiliated Hospital

- **Featured Departments**
 - **PET Center**

The Second Affiliated Hospital

- **Featured Departments**
 - **The Emergency Center**

The Second Affiliated Hospital

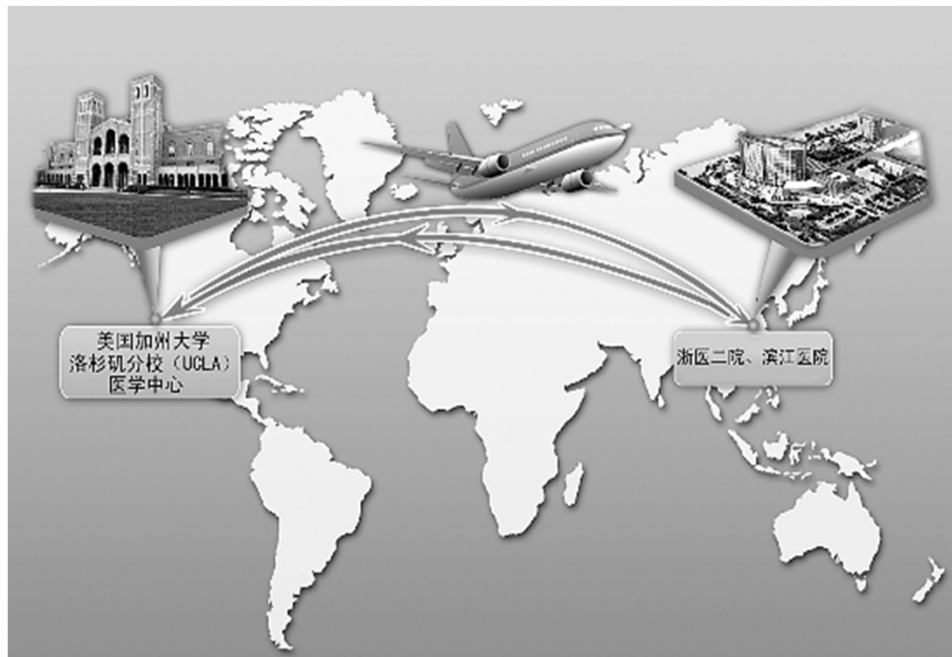

- **Featured Departments**
 - **The Cardiology Center**

**Prof Wang Jian'an in
Hybrid operation room**

The Second Affiliated Hospital

- **Featured Departments**
 - **ZJU-UCLA International Tele-medicine Center**

Aug 24 2011, Dr William Oppenheim from UCLS provides tele-consultation for a girl (Niuniu) who fell from 10th floor.

Sir Run Run Shaw Hospital

- Third Affiliated Hospital
- Founded in 1994
- Established with Loma Linda University
- 2,218 staff members
- 49,508/year inpatient
- 997,966/year outpatient
- Accredited JCI in 2006

Sir Run Run Shaw Hospital

- **Laparoscopic hepatectomy**

Dr Cai Xiujun and his team performed more cases of laparoscopic hepatectomy in single institute than others in the world (3D laparoscopy)

Sir Run Run Shaw Hospital

- **Heart Center- Hybrid Operation room**

Hybrid Operation room

Woman's Hospital

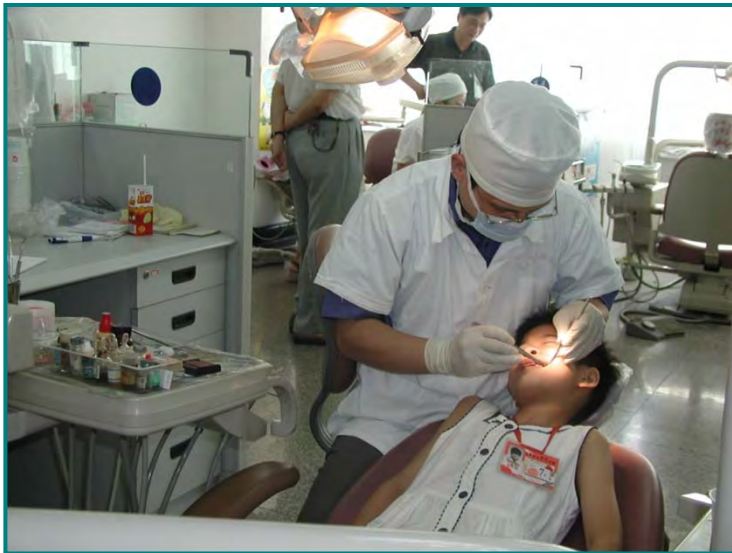

- **Founded in 1951**
- **934 staff members**
- **38,964/year inpatients**
- **1,092,171/year outpatients**
- **One of biggest women's hospital in China**

Children's Hospital

- Founded in 1951
- 1421 staff members
- 33,857/year inpatients
- 1,124,000/year outpatients
- One of biggest children's hospital in China

Dental Hospital

- **Founded in 1991**
- **238 staff members**
- **500/year inpatients**
- **200,000/year outpatients**

New Hospitals: Yiwu Hospital

- Founded in Dec. 2009
- To open at the end of 2013
- 12.6 hectares
- 800 beds (stage 1)

New Hospitals: Medical Center

- To open at the end of 2016
- 20 hectares
- Clinical Unit: 1200 beds
- Research Unit: 100,000 m²

New Campus of Affiliated Hospitals

**Binjiang Campus
of Children's Hospital
1250 beds**

**Xiasha campus
of 2nd Affiliated Hospital
1200 beds**

**Xiasha campus
of 3rd Affiliated Hospital
1200 beds**

Challenges for Medical Education & Research

1. How to Teach students in Future?

MOOC (massive online open courses)

Reorganization of medical education systems

Why do we still need teachers

2. New Paradigm of Medical Research in “Big Data” Era?

Systems medicine (Med-X)

Hypothesis-driven research

Data mining or meta-analysis

3. How to Prepare for the Globalization of Medicine?

How to make international collaboration efficiently

Authorship in big project with international collaboration

Medical students in international collaboration

Thanks!
