NANKAI UNIVERSITY

## Assistant Professor Positions

### Institute of Statistics

The Institute of Statistics at Nankai University in Tianjin invites applications for a tenure track position as Assistant Professor in Statistics, Probability, Operation Research and Management Science, Econometrics, or Biostatistics, Risk Management and Data Science. Qualifications for the position include a doctoral degree in Statistics. PhD degree holders whose specializations fall within other related areas and feel that they can contribute to the Institute are also encouraged to apply. The ability to teach courses related to current developments in statistics at both undergraduate and graduate levels is expected. Candidates should have a strong potential to develop a record of academic achievement (published papers and research awards).

The Institute of Statistics is a new administrative unit of division level at Nankai. Establishment of the Institute of Statistics was approved in Oct, 2013 as part of a reorganization plan of disciplines within Nankai, although the Institute was built upon an existing academic foundation, the Department of Statistics in the School of Mathematical Sciences. Department of Statistics was founded in 1999, which grew out of the discipline of statistics. As one of the pioneer of this discipline in China, it was initially set up in 1981 and enrolled undergraduates, master graduate students and doctoral candidates since 1983, 1984 and 1990 respectively. The probability and mathematical statistics of Nankai University was evaluated as the national key discipline in 1987, 2002 and 2007 successively. The discipline of statistics is the key discipline of Tianjin. The Institute is expected to experience rapid growth in the near future after it becomes an administrative unit. Our current faculty is made up of experienced and excellent scholars; many of them have outstanding specialties and distinguishing research. Among national academic institutions, Institute of Statistics has a great reputation in teaching, research and educating students and has a certain influence in the international community.

Salary is internationally competitive and will be commensurate with qualifications and experience. In addition to the standard benefits for faculties at Nankai, a settling down allowance between 200,000 to 300,000 RMB and a startup grant at least 200,000 RMB will be provided.

Candidates should submit their CV, representative research papers if any and names and contacts of three referees via email to Prof. Minqian Liu (mqliu@nankai.edu.cn). Inquiries may be made to Dean of Institute of Statistics: Prof. Zhaojun Wang (zjwang@nankai.edu.cn). These positions are open until they are filled. However, we encourage early applications as we may make an offer at any time.
